

AMPLIFIERS & SIGNALERS

Sonic Elite TR75 or Sonic Elite TR75VR

Each applicant automatically receives the Sonic Elite TR75 telephone signaler or Sonic Elite TR75VR videophone signaler. The TR75 and TR75VR notify you of a call by flashing a lamp on and off automatically. Both units can flash lights in other rooms with the addition of Remote Ring Signalers.

Choose one of the three Remote Ring Signalers below

Sonic Alert SA 201

The SA 201 Remote Receiver allows the TR 75 to flash lights in other rooms.

Sonic Alert TR 100

The Sonic Ringer Audible Telephone Signaler Model TR100 alerts you that your telephone is ringing by sounding a loud adjustable horn automatically. The TR100 can flash lights and sound horns in other rooms by use of remote receivers, (Models SA101, SA201, RH100, BL300, Sonic Boom Alarm Clock).

Sonic Blink BL 300

The Sonic Blink, model BL 300 is the latest compact receiver and features a built-in, high intensity strobe light for signaling. The strobe light projects 360 degrees when flashing to eliminate blind spots. The Sonic Blink is perfect for places where a lamp is normally not used, such as in bathrooms, dining rooms and hallways. It can even be placed behind objects such as furniture.

CONSUMER FEEDBACK

"I would like to thank you so much for providing the telephone and accessories that will put Billy back 'among the living' ... today we had a normal phone conversation and he heard and understood everything I said!"

— *Wife of a an
individual with hearing
loss*

"My new CapTel is really useful for me. No one has even noticed there was another person typing everything that was being said. It really saves time and money!! Incredible! Where has this been since I was a teenager?"

— *43 year-old hard of
hearing applicant*

EQUIPMENT SELECTION FORM

THE COLORADO TELECOMMUNICATIONS EQUIPMENT DISTRIBUTION PROGRAM

Colorado Commission for the Deaf and Hard of Hearing

Attn: Colorado TEDP
1575 Sherman Street, 2nd Floor
Denver, CO 80203
303-866-2097 (Voice)
303-866-2098 (TTY)
303-866-4734 (VP)
